

REPUBLIC OF SAN MAGNOLIA

Date: Q1 Evaluation Cycle
Classification: LEVEL 2 - GENERAL DISTRIBUTION
Subject: Autonomous Defense Integrity and Frontline Asset Allocation

Executive Summary

Per Presidential Decree 86, the defense of the Republic's sacred borders continues to rely entirely on autonomous, unmanned combat vehicles. Due to the absolute implementation of AI-driven systems within the autonomous zones, human personnel deployment remains strictly restricted to Handlers stationed safely within the First District command centers. The structural integrity of the Grand Mur remains absolute. The public is reminded that the ethically-responsible war features no human cost on our side.

II. Personnel and Logistics Matrix

The following matrix outlines the operational parameters and casualty data across the active tactical sectors for the first quarter evaluation cycle.

Sector Designation	Active Processors (M1A4)	Human Personnel Casualties
Eastern Front - First Ward	142 Units	0
Eastern Front - Second Ward	98 Units	0
Eastern Front - Spearhead	24 Units	0
